

# Leonardo Da Vinci

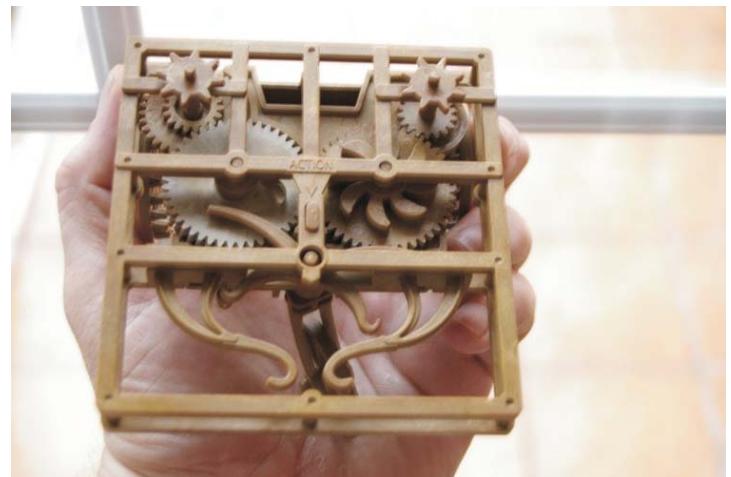

Primer diseño de automóvil de la historia

Primer diseño de automóvil de la historia, tenía un complejo sistema de muelles y contrafuertes que hacían moverse unos engranajes, llevando el movimiento hasta las ruedas. Maqueta de Italeri, reformada con aluminio y madera, con movimiento, gracias a un motor de cuerda.

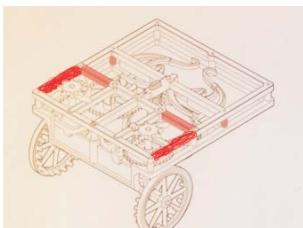

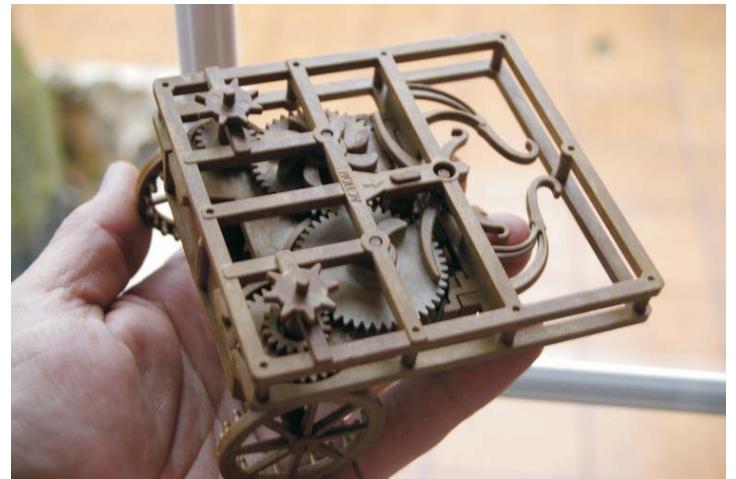

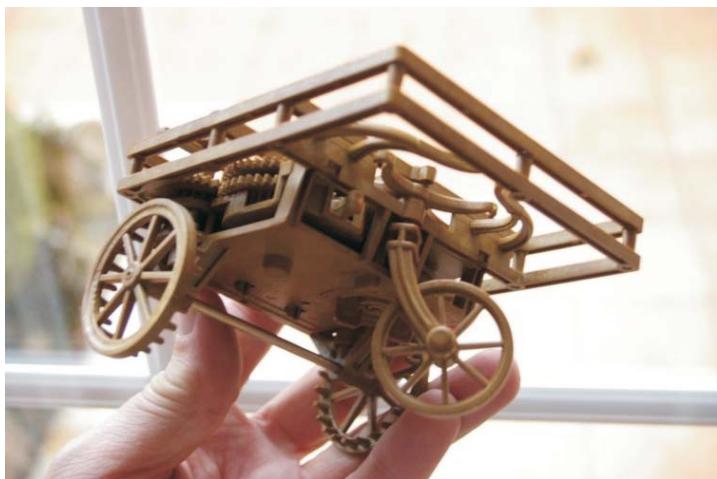

First automobile design history, had a complex system of piers and abutments that were moving gears, bringing the movement to the wheels. Model of Italeri, renovated with aluminum and wood, with movement, thanks to a string engine.
